

CASA REMOTE PILOTS LICENCE

A person wearing a white hard hat and a high-visibility yellow-green vest is seen from the back, looking towards a small black drone flying in the sky. The scene is set in a field with a large wind turbine in the foreground and several other turbines in the distance under a clear blue sky. The sun is low on the horizon, creating a bright lens flare effect behind the person's head.

Generation
Pilot**

What does this course involve?

The CASA Remote Pilots Licence (RePL) course is your first step into the commercial and operational drone world. It is delivered face to face or through our live virtual classrooms where our instructors will take you through the aviation theory and at least 5 hours flight time on some of the latest RPAS equipment in the industry.

What will I study?

With UAV Training Australia, we will guide you through the mandatory training requirements to obtain your CASA RePL (Remote Pilots Licence) as well as extra subjects to give you the required knowledge to succeed in the commercial drone industry. You will learn subjects such as:

- Meteorology
- Human Factors
- Basic Aeronautical/Aviation Knowledge
- Airspace, charts and aeronautical publications
- Standard Operating Conditions and Procedures
- RPAS Electrical Systems and Components
- Automated Flight

In addition to these theory elements, you will also spend at least 5 hours operating a number of drones under our instruction and guidance, ensuring you can complete the minimum manoeuvres required to gain your RePL while also giving you the skills to operate safely and efficiently in the drone industry.

Who is this course for?

Everyone! We have alumni all over Australia with varying backgrounds and experience levels. Whether you have a wealth of aviation knowledge or have never been in this industry before, our RePL course will give you the necessary skills and qualifications to begin your career as a commercial drone pilot. Age is absolutely no restriction; we have taught students in High School to retirees wishing to gain a new life skill; it's never too early or too late.

Why study with us?

At UAV Training Australia, we pride ourselves on going above and beyond to ensure our students not only meet the CASA standards and requirements for an RePL, we also ensure you develop the skills and knowledge to succeed as a commercial drone pilot in this growing industry. Our instructors have a wealth of aviation knowledge and experience in both teaching and real world RPAS operations, ensuring you are trained to the highest of standards.
