

TOLL

Toll Uncrewed Systems

CASA INITIAL UAV LICENSING (RePL)

**Become a Next
Generation Pilot**

What does this course involve?

The CASA Initial UAV Licensing (RePL) course is your first step into the commercial and operational drone world. It is delivered face to face or through our live virtual classrooms where our instructors will take you through the aviation theory and at least 5 hours flight time on some of the latest RPAS equipment in the industry.

What will I study?

With Toll Uncrewed Systems, we will guide you through the mandatory training requirements to obtain your CASA RePL (Remote Pilot Licence) as well as extra subjects to give you the required knowledge to succeed in the commercial drone industry. You will learn subjects such as:

- Meteorology
- Human Factors
- Basic Aeronautical/Aviation Knowledge
- Airspace, charts and aeronautical publications
- Standard Operating Conditions and Procedures
- RPAS Electrical Systems and Components
- Automated Flight

In addition to these theory elements, you will also spend at least 5 hours operating a number of drones under our instruction and guidance, ensuring you can complete the minimum manoeuvres required to gain your RePL while also giving you the skills to operate safely and efficiently in the drone industry.

Who is this course for?

Everyone! We have alumni all over Australia with varying backgrounds and experience levels. Whether you are a looking to change with the times, add a versatile qualification to your portfolio, make your job safer or more cost effective, or even make a career change this course can get you started.

Why study with us?

At Toll Uncrewed Systems, we pride ourselves on going above and beyond to ensure our students not only meet the CASA standards and requirements for an RePL, but also ensure you develop the skills and knowledge to succeed as a commercial drone pilot in this growing industry. Our instructors have a wealth of aviation knowledge and experience in both teaching and real world RPAS operations, ensuring you are trained to the highest standard.
